

EHSSSENTIALS 2018

Environmental, Health & Safety Symposium for Healthcare

Learn how leading healthcare organizations are solving today's most challenging environmental, health and safety issues.

A unique, convenient and affordable one-day learning and networking opportunity

EHSSSENTIALS is a one-of-a-kind event that brings together environmental, health, and safety (EHS) professionals from the healthcare industry for an information-rich, strategy-packed day.

- **Learn from industry experts** about the latest EHS trends, issues and solutions affecting healthcare facilities.
- **Hear real world case studies** shared by EHS experts from leading healthcare institutions.
- **Network with Symposium speakers and industry colleagues** to discuss your unique challenges and make valuable connections for the future.
- **Take new ideas and resources back to your organization** to improve current and upcoming needs and programs.

While specific topics vary by location, our expert presenters will be sharing insights and experiences addressing a wide range of healthcare EHS challenges, for example:

- Safe patient handling
- Sustainability, green health and facility renovation
- Mass casualty emergency preparedness
- Workplace violence
- CMS/Joint Commission/DNV Update
- Current issues: Legionella, Electrical 70E, Silica Dust
- Chemical and waste management; USP 800
- Injury prevention and safety culture
- What keeps you up at night? EHS hot topics

Plus, keynote and plenary sessions feature innovative strategies, out-of-the-box solutions and cost-effective ideas from industry thought leaders.

Now in its fifth year, EHSSSENTIALS has grown to meet the needs of EHS professionals across the US.
